## Contents of Volume 60

### Number 1

- 1 Effects of dye additives on the ozonation process and oxidation by-products: a comparative study using hydrolyzed C.I. *Reactive Red 120*  
F. ZHANG (People's Republic of China), A. YEDILER (Germany), X. LIANG (People's Republic of China) & A. KETTRUP (Germany)
- 9 Benzothioxanthene dyes as fluorescent label for DNA hybridization: synthesis and application  
P. MAO, X. QIAN, H. ZHANG & W. YAO (China)
- 17 Synthesis and peroxidase-staining properties of novel water soluble polyhydroxylalkyl benzidine dyes  
L. LIU, ZHANG YULAN & X. QIAN (China)
- 23 Relationship between photochemical properties and colourfastness due to light-related effects on monoazo reactive dyes derived from H-acid,  $\gamma$ -acid, and related naphthalene sulfonic acids  
T. HIHARA, Y. OKADA & Z. MORITA (Japan)
- 49 Electrophilic reactivity of cationic triarylmethane dyes towards proteins and protein-related nucleophiles  
Y. ELDEN & I. ÖZER (Turkey)
- 55 Synthesis and characterization of new liquid crystallines containing a mono-aza styrylated indolinobenzospiropyran. Part 6  
S.-R. KEUM, S.-M. AHN & S.-H. LEE (South Korea)
- 61 Decolorization of disperse red 354 azo dye in water by several oxidation processes—a comparative study  
M. NEAMTU (Germany), A. YEDILER (Romania), I. SIMINICEANU, M. MACOVEANU & A. KETTRUP (Germany)
- 69 Adsorption of anionic dyes in acid solutions using chemically cross-linked chitosan beads  
M.-S. CHIOU, P.-Y. HO & H.-Y. LI (Taiwan)
- 85 Novel fibre-reactive triazinyl betaines: a one step synthesis of 4-m-carboxypyridinium-s-triazine-2-oxides from dichloro-s-triazinyl derivatives  
A.H.M. RENFREW, I. BATES, V. KAMPYLI & D.A.S. PHILLIPS (UK)

### Number 2

- 91 The development of a metal-free, tannic acid-based aftertreatment for nylon 6,6 dyed with acid dyes—part 3: different enzymes  
S.M. BURKINSHAW & B. BAHOJB-ALLAFAN (UK)
- 103 Photostability studies of thermomesomorphic derivatives of 2,5-dihydropyrrolo[3,4-c]pyrrole-1,4-dione  
S. ALP, K. ERTEKIN (Turkey), M. HORN (USA) & S. ICLI (Turkey)
- 111 Synthesis and absorption properties of some new azo-metal chelates and their ligands  
H. SONG, K. CHEN, D. WU & H. TIAN (PR China)
- 121 Effect of reactive anionic agent on dyeing of cellulosic fibers with a Berberine colorant  
T.-K. KIM, S.-H. YOON & Y.-A SON (South Korea)
- 129 Solubilization of ionic dyes in supercritical carbon dioxide: a basic study for dyeing fiber in non-aqueous media  
K. SAWADA, T. TAKAGI & M. UEDA (Japan)

137 In-fibre formation of  $\text{Fe(OH)}_3$ —a new approach to pigment coloration of cellulose fibres  
A. KONGDEE & T. BECHTOLD (Austria)

143 Effect of the amino group on the properties of 1-(benzylideneamino)pyridinium salts  
R. GAWINECKI, R. DOBOSZ & A. ZAKRZEWSKA (Poland)

147 Synthesis and mesomorphic properties of liquid crystallines, alkyloxybenzoyloxy phenylated indolinobenzospiropyrans. Part 7  
S.-R. KEUM, C.-H. CHO & Y.-K. CHOI (South Korea)

155 Alkali-hydrolysis kinetics of 4-amino-4'-fluorosulfonylazo benzene disperse dyes and their dyeing fastness properties  
J. KOH (South Korea), A.J. GREAVES (UK) & J.P. KIM (South Korea)

167 Homogenous photocatalytic degradation of a disperse dye and its dye bath analogue by silicadodecatungstic acid  
I. ARSLAN-ALATON (Turkey)

**Number 3**

177 Synthesis of some 3-phenyl chromenone-crown ethers and equilibrium studies on complexation with ion-pair extraction of sodium and potassium dyes  
Ü. ÇAKIR, M. ÖZER, M.A. İÇEN, H.I. UĞRAŞ & M. BULUT (Turkey)

187 Application of Box-Wilson experimental design method for the photodegradation of textile dyestuff with  $\text{UV/H}_2\text{O}_2$  process  
U. BALI (Turkey)

197 Phase behavior of the perfluoropolyether microemulsion in supercritical  $\text{CO}_2$  and their use for the solubilization of ionic dyes  
K. SAWADA, J.H. JUN & M. UEDA (Japan)

205 Synthesis and antimicrobial activity of certain novel monomethine cyanine dyes  
R.M. ABD EL-AAL & M. YOUNIS (Egypt)

215 Metallochromic merocyanines of 8-hydroxyquinoline series. II. Dyes with end nuclei of low basicity  
YU.P. KOVTUN, YA.O. PROSTOTA, M.P. SHANDURA, YE.M. PORONIK & A.I. TOLMACHEV (Ukraine)

223 Effects of additives on the dyeing of polyamide fibres. Part I:  $\beta$ -cyclodextrin  
P. SAVARINO, S. PARLATI, R. BUSCAINO, P. PICCININI, I. DEGANI & E. BARNI (Italy)

233 Application of silica-based pigments in water-borne acrylic paints and in solvent-borne acrylic paints  
A. KRYSZTAFKIEWICZ, S. BINKOWSKI & A. DEC (Poland)

243 Experimental estimation of stability constants of copperised azo dyes in water  
M.S. BREWER & G.L. BAUGHMAN (USA)

249 Synthesis of new 5-thiazolyl azo-disperse dyes for dyeing polyester fabrics  
M.A. METWALLY, E. ABDEL-LATIF, F.A. AMER (Egypt) & G. KAUPP (Germany)
